THE CONTRACTING PARTIES, Kingdom of Belgium, Federal Republic of Germany, Republic of Estonia, Ireland, Hellenic Republic, Kingdom of Spain, French Republic, Italian Republic, Republic of Cyprus, Grand Duchy of Luxembourg, Republic of Malta, Kingdom of the Netherlands, Republic of Austria, Portuguese Republic, Republic of Slovenia, Slovak Republic and the Republic of Finland (the "euro-area Member States" or "ESM Members");

COMMITTED TO ensuring the financial stability of the euro area;

RECALLING the conclusions of the European Council adopted on 25 March 2011 on the establishment of a European stability mechanism;

WHEREAS

(1) The European Council agreed on 17 December 2010 on the need for euro area Member States to establish a permanent stability mechanism. This European Stability Mechanism will assume the tasks currently fulfilled by the European Financial Stability Facility ("EFSF") and the European Financial Stabilisation Mechanism ("EFSM") in providing where needed financial assistance to euro area Member States after June 2013.

(2) On 25 March 2011, the European Council has adopted a decision adding to Article 136 of the Treaty on the Functioning of the European Union the following paragraph: "*The Member States whose currency is the euro may establish a stability mechanism to be activated if indispensable to safeguard the stability of the euro area as a whole. The granting of any required financial assistance under the mechanism will be made subject to strict conditionality*".

(3) Strict observance of the European Union framework, the integrated macro-economic surveillance, in particular the Stability and Growth Pact, the macroeconomic imbalances framework and the EU economic governance rules, should remain the first line of defence against confidence crises affecting the stability of the euro area as a whole.

(4) If indispensable to safeguard the financial stability of the euro area as a whole, access to ESM financial assistance will be provided on the basis of strict policy conditionality under a macro-economic adjustment programme and a rigorous analysis of public-debt sustainability. The initial maximum lending volume of the ESM after the complete run down of the EFSF is set at EUR500bn.

(5) All euro-area Member States will become ESM Members. As a consequence of joining the euro area, a Member State of the European Union (the "EU") should become a member of the ESM with full rights and obligations, in line with those of the contracting parties.

(6) The ESM will cooperate very closely with the International Monetary Fund ("IMF") in providing financial assistance. In all circumstances, active participation of the IMF will be sought, both on technical and financial level. A Member State requesting financial assistance from the ESM is expected to address a similar request to the IMF.

(7) Non euro area Member States participating on an ad hoc basis alongside the ESM in a financial assistance operation for euro-area Member States will be invited to participate, as observers, in the ESM meetings when this financial assistance and its monitoring will be

discussed. They will have access to all information in a timely manner and be properly consulted.

(8) On xx 2011, the representatives of the governments of the Member States of the Union, authorised the contracting parties of this Treaty to request the European Commission and the European Central Bank ("ECB") to perform the tasks provided for in this Treaty.

[(9) An adequate and proportionate form of private-sector involvement will be sought on a case by case basis where financial assistance is received by an ESM Member, in line with IMF practice. The nature and extent of this involvement will depend on the outcome of a debt sustainability analysis and take due account of the risk of contagion and potential spill over effects on other Member States and third countries. On the basis of this analysis and depending on whether a macro-economic adjustment program can realistically restore the public debt to a sustainable path, the beneficiary Member State may be required to take initiatives ranging from encouraging the main private investors to maintain their exposure to engaging in active negotiations in good faith with its creditors to secure their direct involvement in restoring debt sustainability] [alternative to Article 12 (2)]

[(10) In its statement of 28 November 2010, the Eurogroup stated that standardized and identical Collective Action Clauses ("CACs") will be included, in such a way as to preserve market liquidity, in the terms and conditions of all new euro area government bonds starting in June 2013. Moreover, the Term Sheet on the ESM, as endorsed by the European Council on 25 March 2011, stated that the detailed legal arrangements for including CACs in euro area government securities will be finalised by the end of 2011.] [alternative to Article 12 (3)]

[(11) Like the IMF, the ESM will provide financial assistance to a Member when its regular access to market finance is impaired. Reflecting this, Heads of State and government have stated that the ESM will enjoy preferred creditor status in a similar fashion to IMF, while accepting preferred creditor status of IMF over ESM. The euro area Member States will support equivalent creditor status of the ESM and that of other Member States lending bilaterally alongside the ESM] .

(12) Disputes concerning the interpretation and application of this Treaty arising between the contracting parties or between the contracting parties and the ESM, should be submitted to the jurisdiction of the Court of Justice of the European Union, in accordance with Article 273 of the Treaty on the Functioning of the European Union ("TFEU").

(13) Post-programme surveillance will be carried out by the European Commission and by the Council of the European Union within the framework laid down under Articles 121 and 136 TFEU.

HAVE AGREED as follows:

CHAPTER 4. OPERATIONS OF THE ESM

Article 12 Principles

[1.] If indispensable to safeguard the financial stability of the euro area as a whole, the ESM may provide financial assistance to ESM Members, subject to strict conditionality under a macro-economic adjustment programme, commensurate with the severity of the economic and financial imbalances experienced by that ESM Member.

[2. An adequate and proportionate form of private-sector involvement shall be sought on a case by case basis where financial assistance is received by an ESM Member, in line with IMF practice. The nature and the extent of this involvement shall depend on the outcome of a debt sustainability analysis and shall take due account of the risk of contagion and potential spill over effects on other Member States and third countries. If, on the basis of this analysis, it is concluded that a macro-economic adjustment program can realistically restore the public debt to a sustainable path, the beneficiary Member State shall take initiatives aimed at encouraging the main private investors to maintain their exposure. Where it is concluded that a macro-economic adjustment program cannot realistically restore the public debt to a sustainable path, the beneficiary Member State shall be required to engage in active negotiations in good faith with its creditors to secure their direct involvement in restoring debt sustainability.. In the latter case, the granting of financial assistance will be contingent on the Member State having a credible plan for restoring debt sustainability and demonstrating sufficient commitment to ensure adequate and proportionate private-sector involvement. Progress in the implementation of the plan will be monitored under the programme and will be taken into account in the decisions on disbursements.] [Alternative to recital 9]

[3. Collective action clauses shall be included in all new euro-area government securities, with maturity above one year, from July 2013, in a standardized manner which ensures that their legal impact is identical in all euro-area jurisdictions.] [Alternative to recital 10]

- (a) Assess the existence of a risk to the financial stability of the euro area as a whole;
- (b) Undertake - wherever possible, together with the IMF - a rigorous analysis of the debt sustainability of the ESM Member concerned;
- (c) Assess the actual financing needs of the ESM Member concerned and the nature of the private sector involvement required, in accordance with Article 12.

2. On the basis of the assessment referred to in paragraph 1, the Board of Governors may decide to grant, in principle, financial assistance to the ESM Member concerned.

3. If a decision to grant, in principle, financial assistance is adopted, the Board of Governors shall task the European Commission to negotiate with the ESM Member concerned – wherever possible, together with the IMF and in liaison with the ECB – a memorandum of understanding (hereinafter the “MoU”) detailing the economic policy conditions, contained in a macro-economic adjustment programme and attached to the financial assistance. In parallel, the Managing Director of the ESM shall prepare a proposal for financial assistance, including the terms and financial conditions and the choice of instruments, to be adopted by the Board of Governors.

The MoU shall be fully consistent with the measures of economic policy coordination foreseen in the TFEU, including any act of secondary legislation as well as any opinion, warning, recommendation or decision addressed to the ESM Member concerned.

The European Commission – wherever possible, together with the IMF, and in liaison with the ECB – shall be entrusted with monitoring the compliance with the economic policy conditions attached to the financial assistance. 2. The technical terms and conditions of each loan shall be specified in a financial assistance agreement, to be signed by the Managing Director.
3. The ESS pricing shall cover ESM funding cost plus an additional margin determined by the Board of Governors. The pricing structure is detailed in the pricing policy in Annex 3. The pricing policy shall be reviewed regularly by the Board of Governors.

As long as the ESM has not provided a financial assistance to one of its Members, the proceeds from the investment of the ESM paid-in capital shall be returned to the ESM Members according to their respective shares, after deductions for operational costs, provided that the targeted effective lending capacity is fully available.
2. The Board of Directors may decide, by simple majority, to distribute a dividend to the ESM Members if the amount of paid-in capital and the reserve fund exceeds the level required to maintain the lending capacity of the ESM and proceeds from the investment are not required to avoid a payment shortfall to the creditors. Dividends are distributed *pro rata* to the shares.
3. The Managing Director shall implement the dividend policy of the ESM, in accordance with guidelines to be adopted by the Board of Directors.

The Board of Governors shall decide an appropriate course of action for ensuring that the ESM Member concerned settles its debt to the ESM within a reasonable period of time and shall be entitled to require the payment of default interest on the overdue amount.
